

EXAMSDIRECT®: A FULLY HOSTED AND MANAGED ONLINE TESTING SERVICE

With ExamsDirect, you can:

Multiply your resources

For many of our clients, with limited in-house training resources, ExamsDirect provides full administrative services. Our dedicated Technology Coordinators enter questions, create exams, do assignments, and run reports. ExamsDirect saves you money by providing staffing flexibility and outsourced IT services.

Achieve your assessment goals quickly

Initial set-up of your testing portal can take as little as one to two weeks. After that, each test has a typical turn-around time of less than 24 hours. Rapid turn-around of questions, exams and assignments by a trained, dedicated staff allows you to quickly and accurately reach your testing goals.

Have immediate access to results

Managers get immediate access to the results of their direct reports. Trainers may also immediately see test results. Executive management can use Exams Daily, ExamsDirect's executive dashboard.

Feel secure

Our data center is SAS 70 and ISO 9001 certified. With multiple backup servers and off-site archiving ExamsDirect is available 24/7 and your data is always secure.

Compete affordably

With outsourced staffing ExamsDirect will save you money over traditional licensed testing solutions.

Test securely outside your company

Because ExamsDirect is hosted outside your company's firewall you can test internal employees, contract employees and non-employees securely.

The ExamsDirect® Assessment Service allows you to rapidly and inexpensively have web-based testing available to employees or external groups, without purchasing or installing any software. An ExamsDirect portal provides global, enterprise, online testing, can be set up in just a few weeks and eliminates all IT costs.

What do you get with an ExamsDirect Portal?

ExamsDirect is a complete online assessment service. With it you get:

- A branded, hosted, Web site, which you can use to deliver any number of online tests
- The ExamsDirect Daily Executive Dashboard for tracking test status and results
- Complete administrative services for entering questions and tests, creating assignments and running reports
- Customized student and manager user guides
- A second-level Help desk.

How are tests and assignments created?

Setting up your portal and exams is a rapid and straightforward process:

- 1 ExamsDirect sets up a branded portal for you. It is dedicated to your company's use and includes a secure login procedure.
- 2 You provide a roster of test takers either through a direct data feed or via an Excel spreadsheet.
- 3 You forward exam questions (Microsoft Word file), according to formatting specifications provided by ExamsDirect, and an exam properties form (also provided by ExamsDirect).
- 4 The ExamsDirect team inputs the questions, configures the exam(s) (including parameter settings selected by you), and publishes it for review.
- 5 Once the exam is approved, it is made available to the learners at the beginning of the testing period.
- 6 Results may be reported immediately. They are also rolled up daily and provided through our executive dashboard, known as ExamsDirect Daily.

How are assignments and results made known?

When a learner logs in to your secure online portal, she/he sees only the exams assigned, for the time period scheduled. Learners also have access to past test results.

Manager views enable field or internal managers to see exactly how their direct reports are progressing.

Online score reporting is made available to you through the ExamsDirect Daily management dashboard for immediate access to complete exam results (exportable to Excel).
