

HOW TO DISABLE COMMON POP-UP BLOCKERS

Listed below are some of the most popular pop-up blocking software packages, and instructions to enable pop-up windows with them. Pop-up windows must be enabled to use PedagogueDirect. There are dozens of pop-up blocking software packages and we are unable to list each here, but we have chosen the most popular. Generally, most pop-up blockers will install themselves either within the browser toolbar, or within the Windows Taskbar along the bottom right corner of your screen.

Depending upon what is installed on your computer, it is possible that you may have more than one pop-up blocker running. You will have to disable all of them for this site to work properly.

You can test for still active popup blockers by opening the following URL:

INTERNET EXPLORER - MICROSOFT WINDOWS XP SERVICE PACK 2 (SP2)	2
AOL TOOLBAR	2
GOOGLE TOOLBAR	3
MSN TOOLBAR	3
POP-UP STOPPER	4
POPUPCOP	5
YAHOO! TOOLBAR	6
NORTON INTERNET SECURITY/FIREWALL POP-UP BLOCKER	7
OPEN ZONE ALARM (MAY WORK FOR ZONE ALARM PRO AND ZONE ALARM SECURITY SUITE)	7

Internet Explorer - Microsoft Windows XP Service Pack 2 (SP2)

With the release of Microsoft's service pack 2 for Windows XP, pop-up blocking is now directly integrated into Internet Explorer. Note that, by default, pop-up blocking is enabled within Internet Explorer.

To disable the pop-up blocker while on the site, open the **Tools** menu, select the **Pop-up Blocker** option, and select the **Turn Off Pop-up Blocker** option (as shown below):

AOL Toolbar

The AOL Toolbar is available from America On-Line as part of their service's offerings. It appears in the browser as follows:

The following icon is the pop-up blocker:

To allow pop-ups to appear, merely click on the icon. You should now see the following:

Google Toolbar

The Google Toolbar is provided by Google to facilitate searching the web, as well as providing pop-up blocking. This pop-up blocker is part of a menu bar and appears in the browser as follows:

The following icon is the pop-up blocker:

To allow pop-ups to appear, merely click on the icon. You should now see the following:

MSN Toolbar

MSN Toolbar is also provided by Microsoft, as part of their online services. This pop-up blocker is part of a menu bar and appears in the browser as follows:

The following icon is the pop-up blocker:

To disable pop-up blocking, click on the down arrow to the right of the text, which will bring up the following menu:

Click on the **Allow Pop-ups** option.

Pop-Up Stopper

Unlike the other software detailed above, this program is designed solely for preventing pop-ups. When running, it displays an icon in the lower right corner of your Start Menu taskbar (usually near the clock), and appears as follows:

The following icon controls Pop-Up Stopper: 

To disable pop-up blocking, right-click on the icon and the following menu will appear on the screen:

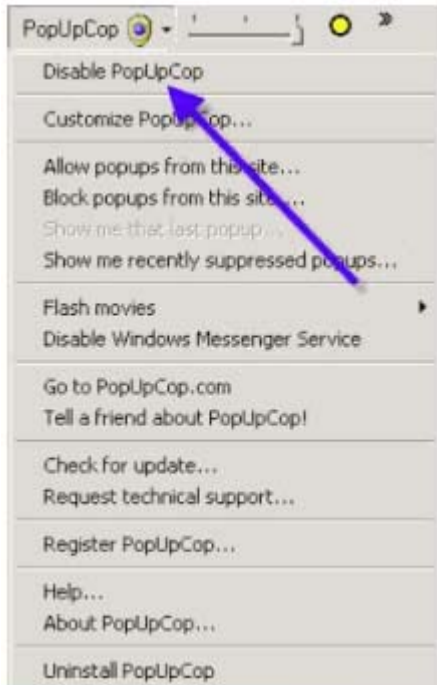

Click on the **Block pop-up ad windows** option to remove the checkmark beside it.

PopUpCop

Like Pop-Up Stopper above, this program is designed solely for preventing pop-ups. This pop-up blocker is part of a menu bar and appears in the browser as follows:

To disable pop-up blocking, click on the arrow to the right of the yellow badge, and a menu will appear with a list of options, as follows:

Click on the **Disable PopUpCop** option.

Yahoo! Toolbar

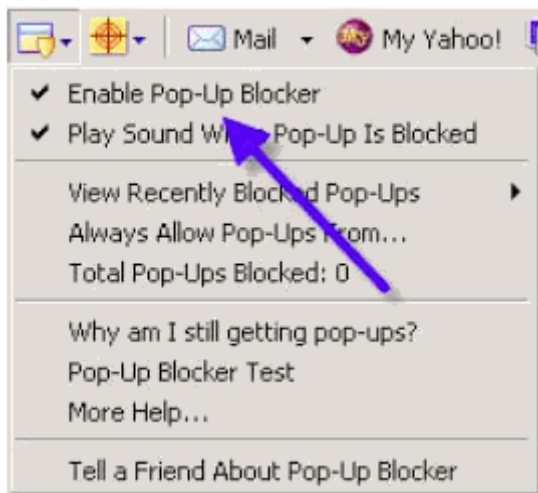

The Yahoo! Toolbar is available from Yahoo! as part of their service's offerings. It appears in the browser as follows:

The following icon is the pop-up blocker:

To disable pop-up blocking, click on the down arrow beside the icon to bring up its menu, as follows:

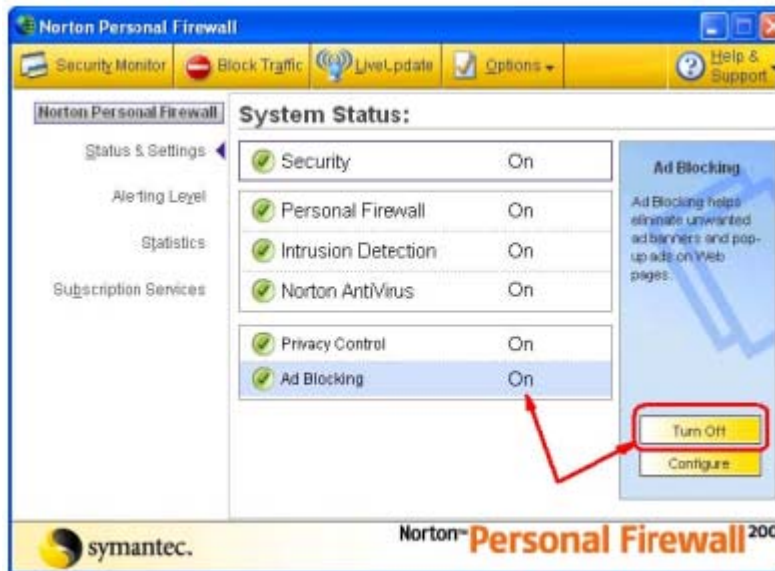

Click on the **Enable Pop-Up Blocker** option to remove the checkmark beside it, disabling the pop-up blocking.

Norton Internet Security/Firewall Pop-up Blocker

To disable pop-up blocking in Norton's Internet Security/Firewall, do the following:

1. Bring up Norton Internet Security's/Firewall's main window. This can be accomplished by opening the Windows Start menu, selecting Programs (or All Programs) and then Norton Firewall. A window like the following should appear:

2. Click on the Ad Blocking line.
3. Click on the Turn Off button.
4. Close the window.

Open Zone Alarm (may work for Zone Alarm Pro and Zone Alarm Security Suite)

1. Select Privacy->Main
 2. In the Ad Blocking area options should be there to turn it off
